The Living room

Designed
by Siz &
Associates,
this Mumbai
home
exudes
peace and
serenity in a
rich way.

SERENITY SYMBOLIZED!

Located in the western suburbs of Mumbai is this expansive 1,050 sq. ft. home. With an aim of creating an elegant home, designer duo Suraj Dutta and Imran Khan of Siz & Associates has kept the ambiance warm and cosy. "There was lot of civil changes as we had to convert two homes into one. With meticulous planning and research, we had proper demarcation of spaces," shares Imran. Dominated with white interiors, the home flaunts a rich and modern feel.

As you enter the abode, you notice the safety door done in golden finish *jaali* while the main door has mirror panelling. The Italian marble dominates the flooring for the entire home while the

The Dining area

toilets are done in Metallic tiles to add a dash of panache. The contemporary white sofa with a wooden base centre table finished with champagne leafing and glass on top welcomes you into the living room. It includes the T.V unit done with combination of white duco and champagne leafing that takes the form of circular gridding with backlit and acrylic panelling. The dinner area has been tastefully done. For the dining table, the designer duo followed the concept of circular glass top with a carved wooded base finish with champagne leafing. You can't miss the golden laser-cut mirror panelling done on the back wall. Continuing with the application of champagne leafing, you notice the ceiling in this area is done

The Children's bedroom

with cove finish and champagne leafing while the crystal chandelier adds to the glamour quotient. Done in white, the walls have a dash of golden while a crystal jaali gives a decorative demarcation for the living and dining space.

Moving on to the master bedroom, the bed is carved with champagne leafing followed up with a carved panel that makes space for lesser storage. Here, again the ceiling is done in a round cove-finish with leafing while the crystal chandelier beautifies the space. The children's room has a cushioned bed with an interesting leaf concept that is followed on the TV unit and wardrobe. The TV unit is done in silver leafing while the wardrobe has laser cut mirror with silver finish. The acrylic ceiling has textured silver leafing on it. Last but not

the least is the guest bedroom where the bed is carved with brown antique leafing while the TV unit and wardrobe is done with white duco and metallic design handles.

"Keeping in mind the client's functional requirement, lifestyle, budget and time frame, we have sketched out a streamline design that exudes elegance," asserts Suraj. With its peaceful yet rich interiors, the home truly symbolizes serenity!
